WELCOME TO NORTH SHORE LANGUAGE SCHOOL

This handbook will help you to know the way the SCHOOL operates and help you maintain and participate in a safe and friendly learning environment. We encourage you to read it carefully – its aim is to help you to develop your potential so that you can have a promising future and accomplish your dreams.

We are a private academy specialising in English language training for non-native speakers as well as specialising in the training of teachers (TESOL) for domestic and international students.

North Shore Language School opened in 2002. We are a well-known academy with an excellent reputation. We are NZQA approved and accredited. We have been given the highest rating of Highly Confident for educational performance by NZQA, and rated as a category one school for two consecutive reviews (2010 and 2014). This is an achievement that we are very proud of and we feel it reflects the professionalism of all staff and the high level of academic achievement that our students attain. We also pride ourselves on providing a warm, friendly, family-like atmosphere in which all students can happily learn.

NSLS is situated on the North Shore which is a beautiful part of Auckland. There are a number of beaches in the local area. The closest beaches (Milford Beach and Takapuna Beach) are just a 5 minute drive away. We are on main bus routes and close to convenient shopping areas. The North Shore is considered to be a very safe area to live in and we are able to assist students in finding a homestay or other suitable accommodation.

Our English language classes cater for students from Beginner level right up to our IELTS class in which more advanced students can train in English and exam techniques. The classes are small (a maximum of 12 students) and this enables the tutors to give individual attention. The tutors aim to develop the students' English language to a high level and also focus on building the students' confidence to be able to use their English to communicate with others.

North Shore Language School offers the New Zealand Certificate in English Language qualifications at Levels 1 – 5. There are programmes for students who want to learn English for general purposes (NZCEL Levels 1 & 2), as well as English for academic purposes (NZCEL Levels 3, 4 & 5).

Our TESOL programme (Teaching English to Speakers of Other Languages) is in its eighth year of operation. During that time we have successfully trained and inspired many English language teachers. In the NZQA reviews of North Shore Language School, the English Language Teaching Course (TESOL Training) has been given the highest rating of Excellent. Reasons for this highest rating included the quality of tutors and the high level of student achievement. NZQA found that the student achievement was over 98% and this was due to the support and guidance of the tutors and the use of both formative and summative assessment to create many development opportunities for the teacher trainees. The teacher trainees were interviewed by NZQA and they reported "that the tutor was 'famous' and that they had been recommended by other students to join".

Thank you for choosing North Shore Language School. We look forward to working with you to help you achieve your goals.

David Yoon

You are likely to be asked to show identification before you enter a hotel bar or club and you must show your passport or driving license which has your photo. It is against the law to drink in a public place such as a beach or park, or have alcohol in your possession in a public place if you are under 18 years and not with a parent or guardian. The fines for breaking any laws relating to alcohol can incur fines between NZ\$200 and NZ\$2000. Laws relating to drug supply and use are much more severe, and can lead to long prison terms. In New Zealand it is against the law to buy, sell, use or possess certain drugs. The smoking of cigarettes or tobacco is not illegal in New Zealand, though it is illegal for shops to sell these items to anyone less than 16 years. Restrictions exist as to where you can and cannot smoke. 'No smoking' areas are usually marked with 'no smoking' signs and these often include many public places such as buses, shops and restaurants. You should also ask before smoking in people's houses. It is normal to go outside to smoke to be courteous to your host. The possession and supply of "hard" drugs will</p>

	result in very serious penalties including prison and deportation. North Shore Language School has a 'no drugs and no alcohol' policy. This will lead to instant expulsion.
2.9	<p>Gambling</p> <p>There are four main forms of legal gambling in New Zealand:</p> <p>Lotteries</p> <p>These include Lotto, Daily Keno, and TeleBingo. Each game is slightly different but they all involve choosing numbers and hoping they match the numbers shown on TV. There is no age limit for these games.</p> <p>Instant Kiwi</p> <p>Instant Kiwi is a scratch card game. All games are played by scratching off the surface of the card to reveal if you have won and if so, how much you have won. You must be aged 16 years or older to buy Instant Kiwi tickets. All profits from Lotto, Daily Keno, TeleBingo and Instant Kiwi are distributed to the community by the New Zealand Government Lottery Grants Board.</p> <p>TAB</p> <p>The TAB (Totalisator Agency Board) provides the opportunity to gamble on horse racing and other sports. You must be 18 years old to place a bet with the TAB or bet at the horse racing tracks. There are many horse racing tracks throughout New Zealand with races most days of the week.</p> <p>Casinos</p> <p>There are several major casinos in New Zealand. The legal age to enter any casino is 20 years.</p>
2.10	<p>Convictions</p> <p>If you are on a visa or permit in New Zealand and are found guilty of a crime you can have your visa / permit revoked and be sent back to your home country. If you get into trouble you should consult a lawyer to help you immediately.</p>

3. Enrolment Confirmation

Refund Conditions

All applications for a refund must be in writing to the Managing Director. Please collect a Withdrawal Form from Reception and complete it. If you withdraw from study, we will notify StudyLink and/or Public Trust and/or Immigration NZ, and/or other government agencies. If a refund is given it will be through the Public Trust, and will usually go directly to the original payer. Any refunds will be paid in New Zealand dollars inclusive of GST. Students are responsible for investigating fee implications of withdrawing from a course and for withdrawing in a timely manner.

(See section 3.2)

Credit Transfer

Credit transfers must be applied for at enrolment time. Credit transfers apply only to the five Level 4 EAP unit standards within the NZCEL (Academic) (Level 4) programme.

Credit transfer will be considered for Level 4 unit standards 22749, 22750, 22751, 22891, and 22892 (the five Level 4 EAP unit standards) towards the NZCEL (Academic) (Level 4) programme, if the student has already achieved these unit standards at another New Zealand institution. Each credit transfer application will be considered on a case by case basis.

To be eligible for consideration, you must have completed the unit standard within the last two years. This application will not be processed unless full supporting documentation is attached. Partial achievement of a standard will not be considered for credit transfer.

If a credit transfer application is being made for unit standards in the NZCEL Level 4 programme:

- a) A credit application must be made using the Credit Transfer Application section of the application form at enrolment time.
- b) Evidence of attainment of the Level 4 EAP unit standard(s) in the form of an original or certified copy of their academic transcript from the New Zealand institution or NZQA must be supplied.
- c) Payment of the Credit Transfer Application fee of \$50 + \$5 for each credit in the credit transfer application is required. Each unit standard constitutes 5 credits.

Once the credit application and supporting evidence is received, NSLS will process the credit transfer application. Students will be advised of the result of their credit transfer application prior to payment of their fees invoice, and prior to confirmation of their place on the programme.

If the credit transfer for any of the unit standards in the Level 4 programme is approved, this will mean that those credits will be awarded against the New Zealand Certificate in English Language (Academic) (Level 4) qualification at NSLS. The student will not need to undertake assessment for those unit standards where the credit transfer is applied. Please note, with the exception of assessment events associated with the unit standards already attained, the student will be required to participate fully in the programme (this includes the classroom contact time and the student-directed study time). This is because each of the fourteen units of learning in the programme leads to outcomes right across the Level 4 curriculum.

The Department of Immigration is entitled to revoke your student visa.
- g. Likewise a prolonged absence or absence without notice may result in dismissal and your student visa being revoked.
- h. If your application to enroll requests the School to inform your parents or guardian of your progress, then the School is obliged to advise your parents or guardian of your dismissal or any formal disciplinary action taken.
- i. If serious misconduct occurs instant dismissed from the school may occur.

Definition of Misconduct and Serious Misconduct:

“Misconduct” means some form of wrongdoing. Usually it will involve deliberate wrongdoing, but there may be circumstances where a student acts so carelessly that it amounts to misconduct (i.e. gross negligence or recklessness).

“Serious misconduct” involves serious wrongdoing. Where, after a fair process, it is established that a student’s actions amount to serious misconduct, the school may terminate the student’s enrolment without notice (sometimes referred to as “instant” or “summary” dismissal). The misconduct must be sufficiently serious that it undermines the trust and confidence that the school has in the student (e.g. theft, sexual or other assault, or the use of illegal drugs at the school).

In every case the Managing Director will consider all the facts and the student’s response before it decides whether serious misconduct has occurred.

Appeals

Timing of Appeal

Notice of an appeal must be given within 28 days of the date of the decision being appealed against. The relevant appeals persons may, in its discretion, permit an appeal to be brought outside this time limit.

Appeal Process

Resolution of Appeals

The relevant appeals person may:

Managing Director may determine the procedure to apply at an appeal hearing, however in the interests of natural justice, certain procedures should be adhered to, namely:

- (b) Managing Director should ensure that the Appellant has all relevant material prior to the hearing;

This is VERY IMPORTANT: in case you are in an accident or get ill and cannot speak.

Orientation host family

What you are expected to do at home-stay accommodation:

- NSLS is giving you these hints to help you get on with your host family and to help you understand what home-stay accommodation is.
- We are sure you will agree that home-stay accommodation is very cheap compared with hotels and motels. It is also a golden opportunity (a good chance) for you to talk to native English speakers. You can also experience a different lifestyle or culture.
- Home stay accommodation will also help you to have a family atmosphere in a foreign land.

Host families can expect you to:

- Make your own bed and keep your possessions (things) tidy. Some may expect you to vacuum (clean) your own bedroom carpet. But, some may do this for you.
- Help with the dishes after a meal; put your dirty plate on the kitchen bench.
- Do your own washing...but many prefer to wash your clothes and sheets for you. Please ask your host mother what she wants you to do about your personal washing.
- Show your host family these hints and talk about them together. Please, NEVER dry clothes in your bedroom.
- Use the bathroom at a time that is convenient.
- Do not forget to follow their instructions regarding locking the doors and windows.
- Do not be surprised if your host family has a pet (animal) as New Zealand families often do.

We hope these hints will help you and your host family enjoy living together. We really appreciate your careful consideration in all the above hints so host families will continue to host students for NSLS.

Let the school know your leaving date in advance, if you have not already done so.
THIS IS VERY IMPORTANT!!!

4.8

Cross - Culture Experience& Adaptation

The opportunity to live and study in another country is unparalleled in its adventures, its benefits, and experience, and some would say, its challenges. Learning to navigate the complex web of another culture's values, beliefs, and thought processes are truly a life's study. Most students only have a semester or two to undertake this demanding and meaningful mission, therefore, NSLS encourages all participants to consider the benefits of preparing for their cultural transition.

Please read the following information that will guide you in the intricacies of cultural transition and help you gain more significant meaning from the experience while it occurs.

Culture is a total way of life of any group of people. Culture will impact the way you interact with everyone in your new environment including your home stay family, the bus driver and the teacher.

Know Yourself (Skills That Matter)

Understanding yourself, your goals, your way of thinking, behaving, and going about everyday tasks will facilitate your adjustment to a new environment. While there is no set formula to insure that you will have an effortless transition process, you have to develop certain skills and or traits that can make your adjustment process easier.

Know Your Host Country

Understanding as much as you can about your host country, (and yourself), can greatly reduce the severity of your culture shock. We recommend that you spend a great deal of time familiarizing yourself with the culture, history, politics, and everyday life of your host country and city. A great practical way to learn about your host country and prepare for your trip is to create your own Personalized Study New Zealand Handbook.

The following questions are just a few things to consider when researching your host country.

- How do people organize their daily activities?
- What is the normal meal schedule?
- Is there a daytime rest period?
- Do women work outside the home?
- In professional jobs?
- What is the predominant religion?
- Is it a state religion?
- Are they tolerant of other religions?
- Have you read any of its sacred writings?
- In the education system, what kind of learning is most valued?
- What is the normal work schedule?
- Is it important to be on time?

Culture Shock

Many students study overseas to experience another culture, where you may feel depressed, homesick, or frustrated with your new surroundings. You should recognize that this is only temporary, and as you become more accustomed to this new environment, you will start to appreciate the differences.

Personalized Study Abroad Handbook

Travel guidebooks can be a great resource for study abroad, but most are not tailored to your specific interests or needs. An alternative way to prepare for your upcoming program is to create your own Personalized Study New Zealand Handbook. You can include personal information, practical resources, and the research you collect about your host country. This is not only fun and useful, but also a great memento of your program. Most of the information you will want to include online, so search site such as tourist information, Kiwi expatriate sites, embassy homepages, and cultural etiquette where you can cut and paste the information into your handbook. You can still make use of your travel guidebooks by photocopying relevant information to include in your personalized book.

Here are some suggestions on what you should include:

- Name, address, phone number, and email of the host family or residence where you will be staying while abroad.
- Your study abroad office contacts both abroad, and at home. Procedures for studying abroad with your school that would be useful to have while abroad.
- The phone, fax, and email address for your academic advisor.
- An emergency contact name, phone number, address, and email.
- A copy of your passport. Your flight information. Your travel itinerary.
- The address, directions, and phone number to the nearest Kiwi information centre in your host country.
- Addresses, phone numbers, and emails to all the friends and family you will want to write from abroad. Print stick-on address labels and include the pages in your book! Email is the cheapest and easiest, but postcards are fun, and writing letters can be therapeutic!
- Instructions on how to make phone calls from your host country to your home.
- Conversion sheets for the metric system, currency, Fahrenheit to Celsius, oven settings, clothing and shoe size charts, and power outlet voltages.
- Special recipes from home. Plan to do a little cooking for your hosts!
- Country maps, city maps, maps of places you plan to visit. Directions from the nearest bus, or train to the place you want to go.
- Translation charts. You can find many charts online with common phrases, food and menu translations, and pronunciation. Include language translation information for any other countries you will be traveling to while abroad.
- Landmarks and places of interest. Although store-bought travel guides may provide this condensed information, it is all available online, and the research you will do looking for it can

be very educational. Tourist type websites usually list historical information, admissions costs, opening times, directions, and special events for places of interest.

- Historical, political, and current event information about your host country. Understanding the host culture and its past will make your trip more fulfilling. Information on politics and current events will provide you with conversation topics as well as understanding of the culture.
- Information about the culture of your host country. Find a site about cultural etiquette. Research sports, music, authors, food, and pop culture.
- Special events that will occur while you are abroad. You can find festivals, concert schedules, and other event information online. Look for events that are special for the culture, such as the famous Parachute Music Festival in Mystery Creek, Hamilton or Christmas in the park, in Auckland.
- Information and locations of services you might need. Computer access is sometimes a problem abroad, but there are many Internet cafes. Include a page in your book with the locations of the cafes near your residence.

You may experience a time when you need Kiwi companionship. Look for a few places to speak English, eat familiar food, watch a movie, or shop.

Leave blank pages in between sections and at the end. You may want to write something down later.

5	ACADEMIC INFORMATION
5.1	Course Structure, Materials & Class Timetable Course Structure Remember your class focuses on Reading, Listening, Writing, and Speaking Your class placement has been determined by your placement test result. In the first few days of your course, the teachers and DOS will evaluate whether you are in the best class for your level. Every level consolidates and extends the previous level. Everybody comes to a class with different strengths and weaknesses. Your teacher will find these out and adjust the class program accordingly. Course Materials Your teacher will use numerous NSLS class sets, texts, videos, tapes and other materials. All the above are covered by the fees you have paid. You need to purchase your own set of course books for the respective classes. Photocopied material: Any sheet your teacher gives you will be important. Please file them neatly and do not leave them lying around the classroom or the school. We also believe in recycling worksheets as much as possible to save paper and therefore trees! Advice for General English students: For the General English Courses and IELTS courses: we recommend you buy the grammar book "Essential Grammar in Use" by Murphy, English Grammar in Use by Murphy, or the Advanced Grammar in Use by Hewings (as appropriate to your level). They are available in any bookstore or can be purchased if you place an order at the reception. These grammar books are particularly good for homework and self-study. For the NZCEL courses: we recommend you buy the following books:

Activity Day

Field trips are organized for the students to make learning more exciting. These are called "Activity days". Your class teacher will organize these trips keeping your interests in mind. This Activity Day is fun with learning and therefore related with your course.

If you are under 18 years old, you need to inform your parents or homestay parent before-hand about the "Activity Day" and get their permission to travel off campus.

Important note for teachers of the Academic class and the Admin staff: Staff must give a written notice to the parents, in order to receive permission from their parents.

5.2**Suggestions about how to study English**

In order to learn English quickly, and so you can enjoy studying, you should find your own study strategy.

Here are some suggestions:

1. Learning new vocabulary**a. Vocabulary Book**

- Make a vocabulary book and write all new words in the book, set out from A-Z (Alphabetically)
- Write the new word
- Translate it if necessary
- Write it in an English sentence (use the class example or ask your teacher to help).

b. Select at least 3-5 new words each night to study

- The most effective way to study is to use them in a spoken sentence.
- Ask your host family to help.
- Push yourself to use them in class the next day.
- If you cannot use one of the words, ask your teacher to help you.

2. Time to spend doing homework

No more than two hours (two hours for a high level student, less for a lower level student). Remember you are in a new country, speaking English every day, which is tiring.

3. Listening

- Advanced: Listen to the news every night on TV.
Listen to a short news bulletin first thing in the morning.
- Intermediate: Listen to the news on TV. It does get easier the more often you do it. At first, listen to only one news item.
- Lower levels: Start listening to the news on TV. At first only listen to the first news item and ask your host family or friend to help you to understand the news.
Listen to the basic sentence structures. Repeat sentence structure from class.

4. Reading

- Advanced: Read the daily newspaper.
Read a magazine, e.g. Time, Metro, Women's Weekly.
Get the general meaning first (gist) and then go back and concentrate on one paragraph.

Intermediate and Lower levels: Start reading the newspaper. If you find it difficult, just concentrate on one paragraph.

We strongly recommend that students become members of the local LIBRARY (Glenfield, Birkenhead or Takapuna – whichever is close, the library is free).
Your teachers will be happy to advise you about suitable books for your level.

Following are matters we discuss with you regarding course satisfaction:

1) Your course plan in NZ.

2) Your level:

ACADEMIC ENGLISH PREPARATION PROGRAMME

For Starter, Level 1 to 4 -

We recommend 6 months to 1 year of study at NSLS before starting high school or other institutions. Each level is recommended to be completed within 12 weeks according to the course book syllabus.

GENERAL ENGLISH PROGRAMME

For Beginners, Elementary, Pre-Intermediate, Intermediate, Upper Intermediate –

We recommend 3 months (12 weeks) for each level of study at NSLS. After assessment and placement at the appropriate entry point, students are expected to move on to the next level after 12 weeks at the same level.

If a student is doing extremely well, he/she can be promoted to the next level; this decision would be made by the DOS and the Principal. We strongly recommend that our students complete the level they are at before requesting to go to the next level.

The students must successfully complete the level in which they are studying before moving on to the next level.

NEW ZEALAND CERTIFICATE IN ENGLISH LANGUAGE PROGRAMME

For Level 1 to 5 –

Each level is 60 credits delivered over a 20 week course. Once you have attained that NZCEL qualification, you may enroll for the next level.

Levels 1 & 2 are English for use in General Purposes, and Levels 3, 4 & 5 are English for Academic Purposes. We will discuss your future goals when placing you in a programme, this is to ensure that you are able to work towards your goals while studying at NSLS.

What are the ELTC / TESOL courses?

These courses are titled 'English Language Teaching Course (a 6 week TESOL course) and 'Teaching English to Speakers of Other Languages' (12 week TESOL qualification). There are methods and approaches that have been proven to help students learn English. This course explores the theory related to teaching English. The course also provides a lot of practice opportunities to apply the theory.

What are the aims of the ELTC & TESOL courses?

The aim of the ELTC & TESOL courses are:

- To provide adult domestic students and international students with a first qualification in English language teaching as a foundation for their own further professional development.
- To help the students acquire the necessary knowledge and practical skills to enable them to plan for and deliver lessons to groups of learners with confidence.
- To be suitable for beginner teachers or to act as a 'refresher course' for teachers who already have a teaching qualification. The course motivates and inspires teachers to further develop their skills.
- To provide an opportunity for the TESOL students to further expand their English language skills and terminology to be able to communicate confidently with students and with colleagues within the context of education. This course is suitable for students with IELTS 5.5 (Academic Module) or above. Your TESOL tutor has designed the course to support your own English development.

Medical/Travel Insurance

All international students are required to have health and travel insurance while studying in New Zealand. International Student travel insurance from Southern Cross Travel Insurance has been especially designed to provide international students with the cover they need. You'll have the comfort of knowing you'll be looked after if the unexpected happens.

To be eligible to apply as an International Student, you must hold, or intend to hold, a current New Zealand Student Visa and have medical and travel insurance cover from the first day of your course.

International Student travel insurance offers you:

- **Premiums:**

This policy covers medical and evacuation, changes to your journey, personal accident, personal liability, rental vehicle excess, cash and travel documents, and baggage and personal items.

For full details of cover limits, see the policy wording.

Procedures:

1. As part of the Application process for International Students the Admissions staff will provide an opportunity for the Student to provide evidence of appropriate Medical and Travel Insurance for the planned period of Study, prior to issuing a Confirmation of Place.

2. If the student provides evidence of an approved policy they will not be charged for the default

insurance. A copy of their insurance materials will be sent to NSLS's staff.

3. If the student provides evidence of a non-approved policy they will be advised that it is not suitable and will be charged for the default insurance.

4. If the student provides evidence of a policy that has not been assessed it will be sent to the Assessors to determine whether it is eligible – in the meantime they will be charged the default cover.

Appeals

1. Students have the right to appeal any concerns they have about insurance

2. In the first instance all insurance queries should be managed by the Administrators. It is anticipated that these staff should be able to respond to all queries and use the policy, procedures and scenarios to explain insurance charging and their decisions.

3. If a student wishes to appeal the decision or make a complaint, they should speak to the Managing Director. The final right of appeal within NSLS is the right to appeal a decision to the Managing Director. If the student wishes to take the matter further, they will need to appeal to the iStudent Complaints under the Code of Practice.

(See section 6.8)

6.3

Exit Strategies from the course

An exit strategy is a planned approach to terminating a situation in a way that will maximize benefit and/or minimize damage. North Shore Language School has policies for exit from a course of study by a student. Students who leave North Shore Language School complete an exit interview and/or exit questionnaire to collect feedback from students that can be used for ascertaining school objectives, performance & satisfaction. This information is used to guide future planning.

The following policies may be applied according to the reason for exiting the school:

- Completion of enrolled course (See section 3.2)
- Withdrawal from course (See section 3.2)
- Dissatisfaction with course/school (See section 6.8)
- Expelled from course (See section 4.5)

6.4

6.5

Financial

1. Financial roles and responsibilities

The purpose is to provide information to encourage best practice in financial governance, financial management and reporting.

Financial management is crucial to the health of a school in order to provide adequate funding for day-to-day needs and in planning for the future. A lapse in financial management - or deliberate fraud - diverts the attention of staff and trustees and may cause a reduction in the funds available for curriculum delivery. Problems with a school's financial governance and management almost always impact the education being provided to students. NSLS takes its financial roles and responsibilities seriously and acts lawfully and in accordance with NZQA requirements.

2. Financial management

This section provides a list of indicators that show a school's finances are being well managed.

NSLS has the following:

- Positive working capital – short-term assets (cash and assets that can be converted to cash quickly) are greater than short-term liabilities (payments that have to be made soon) - shows the school can pay its current debts.
- Operating surplus – income is greater than expenses.
- No unauthorised orders for goods and services.
- Bank reconciliations up to date and complete.
- Sufficient cash is held to represent all reserves and funds held on trust.
- Financial queries are answered promptly and completely.
- Monthly financial reports are accurate, complete, timely and useful.
- Annual reports are produced on time and receive an unqualified audit report.
- The management letter received from the school's auditor contains no adverse comments.
- Budgets approved by the board are in place and are monitored monthly by the board.
- Financial policies are in place, have been approved by Managing Director and are reviewed annually.

3. Planning for international students

Planning for international students includes marketing, forecasting numbers, ensuring appropriate educational and pastoral care resources will be available and putting in place financial systems to manage them.

Useful resources to plan for international students are the marketing services of the Education New Zealand Trust, together with the general 'export education brand' for New Zealand.

(1) International Students - Code of Practice for Pastoral Care

When students from other countries come to study in New Zealand, it is important that those students are well informed, safe and properly cared for. The Code of Practice for the Pastoral Care of International Students was introduced on 31 March 2002. The Code sets out minimum standards of advice and care that are expected of education providers regarding international students on their rolls. It provides a procedure that students can follow if they have concerns about their treatment by a New Zealand provider or agent of a provider. Unless a school signs up to the Code they are not

able to enrol international students. NSLS is a signatory to the Code of Practice for the Pastoral Care of International Students

(2) Summary of the Code

Standards are set for education providers to ensure that:

- high professional standards are maintained
- the recruitment of international students is undertaken in an ethical and responsible manner
- information supplied to international students is comprehensive, accurate and up to date
- students are provided with information before entering into any commitments
- contractual dealings with international students are conducted in an ethical and responsible manner
- the particular needs of international students are recognised
- international students under the age of 18 are in safe accommodation
- all providers have fair and equitable internal procedures for the resolution of international student grievances.

The Code also establishes the iStudent Complaints to receive and adjudicate on student complaints.

Part 3 of the Code covers Contracts and Indemnity and one of the requirements is to have a policy that protects the fees of international students to ensure there are good fiscal control mechanisms in place.

Good fiscal controls should include:

- fees coded and audited separately
- fees not spent in advance on the premise that students will continue to attend the school
- the board always having sufficient reserves to be able to return student fees if a student refund is required because the school is unable to provide or continue a course or programme.

6.6

Student Protection

Working Principles

NSLS is committed to the prevention of student abuse and to the protection of students. The physical and emotional safety and care of NSLS students is the primary goal of our organization.

This policy acknowledges that NSLS has a responsibility both under legislation and ethically, to provide a safe environment that ensures all students are:

- Treated with dignity and respect
- Free from physical, emotional and sexual harassment. (See section 4.3)
- Entitled to physical and emotional well being.

NSLS is committed to the following:

- Providing guidelines and training for people working with students in this organization.
- Emphasising that the safety of students as stated in the CYP&F Act 1989, section 6 is paramount.
- Ensuring that students are provided with preventative education via information sourced from the appropriate agencies to enhance their student's safety.
- Developing procedures for dealing with cases of harassment.
- Identifying external agencies to be used, the services they provide, the liaison required, and the appropriate referral procedures.

Guidelines

NSLS's commitment to the well being, and safety of the student, means that the interest and welfare of the student will be this organisation's primary consideration when any decision is made.

Reporting Procedures for incidences of harassment

NSLS's reporting procedures for supervisors after student abuse has been discovered, disclosed or suspected is:

- To believe what the student has said including what is seen.
- To always take action in the short-term to ensure the immediate safety of the student. This means consulting with the management immediately if you suspect there is an immediate risk of the student being abused again.
- To reassure the student, not making promises or commitments that cannot be kept.
- To record all concerns and observations, including exactly what the student has said.
- To obtain only necessary relevant facts.
- To consult with management and never make decisions alone.
- To act on concerns. Not to leave it to someone else, or hope that it will not happen again.
- If there is no short-term risk, take time to consult thoroughly, so that well informed decisions can be made.
- To take further action if a person responsible does not act on concerns.
- To seek support for self as the tasks and situation will be stressful.

(See section 4.3)

Health & Safety

Health and Safety Policy Statement

NSLS will make every effort to ensure the workplace is safe for everyone who is on the site or taking part in the programme. This includes students, staff and visitors. NSLS will comply with all relevant health and safety legislation which also recognizes the valuable contribution the Managing Director makes to ensure the workplace safe.

Hazard and Risk Management

The safety of students and staff at the programme will be ensured by:

- Identifying and recording all potential health and safety hazards at the programme.
- Assessing the risk to staff and programme participants of all identified hazards, on a weekly basis.
- Putting controls in place to remove or minimize the risk.
- Using health and safe work practices, together with staff training.
- Regular inspections by supervisors to check for possible safety hazards.
- Compliance with all relevant codes of practice and regulation.

It is the responsibility of the management to ensure all procedures are in place to ensure the safety of students and staffs. The Managing Director will be involved in hazard identification, and information of identified hazards will be made available to all students. NSLS is obligated to inform the owner of any hazards or maintenance issues.

Accidents Procedures

A first aid kit will be kept at the school and taken on excursions along with emergency contact numbers. The first aid kit will be stored out of reach of the students. It is the responsibility of the administrator to ensure that it is maintained and well stocked.

In the event of any accident to either students or staff the following procedure will be followed:

- Staff will immediately inform the Managing Director.
- Appropriate first aid will be administered. All staff will wear disposable gloves when administering first aid.
- If a student under 18 years old needs medical attention, parents will be contacted to ascertain if they would prefer to take the student themselves or if they would prefer staff to take the student to a medical centre of their choice.
- If serious injury occurs, parents will be notified and an ambulance called. If it is not possible to get an ambulance, students may be transported in a private vehicle.

- All accidents to staff and students will be recorded and investigated. Any Accident involving serious harm will be reported to OSH as soon as possible after its occurrence and the prescribed accident form submitted to OSH within seven days.

Emergency and Evacuation procedures

Emergency contact numbers are displayed on the NSLS bulletin board and in the student handbook (See sections 1.6, 1.7, 4.6)

During an emergency the phone should only be used for emergency communication.

Practice Drills

Teachers are to carry out emergency drills to cover a variety of emergencies (i.e. fire drill, earthquake drill) at least once per school term.

Evacuation

- A whistle blown at three short bursts continuously, or fire alarm.
- Assembly area is displayed on the NSLS Notice Board (grass area at front of school).
- MD and DOS are to check all parts of the building normally occupied by the programme to ensure that everyone has left the building.
- All teachers are to retrieve the attendance registers and carry out a roll call at the assembly area.
- The DOS is to report 'all accounted for' to the MD.
- In case of fire, the DOS or MD is to notify the Fire Service. Ph111. Any staff member or student is authorized to call 111 if they need to report an emergency.

Earthquake and evacuation procedures

Inside a facility

- Plan your best safe zone
- Drop Cover Hold
- Do not try to move while the ground is shaking
- When shaking has stopped, and/or fire alarm has activated, evacuate building immediately
- Make your way to the nearest holding area or park/fields if safe to do so (first choice = grass area at front of school)
- Await instructions from Security or Emergency Personnel (MD, DOS or teacher)
- Do not re-enter buildings/facilities until the all clear has been given by Security or Emergency Personnel

If outside

- Stay outside
- Do not re-enter buildings/facilities
- Take shelter clear of buildings, trees, power lines or other potential hazards
- When shaking has stopped go to your nearest safe area Fields if safe to do so (first choice = grass at front of school)
- Await instructions from Security or Emergency Personnel (MD, DOS or teacher)

DO NOT isolate yourself – stay with others

REPORT any hazards (fire, hazardous material spill or major structural damage) to management

REPORT & TREAT injuries if able/ safe to do so

LOOK FOR Emergency Personnel in HIGH VIZ VESTS if you require assistance

MAKE SURE you know the Evacuation Procedures for all buildings/facilities you attend

YOU WILL FIND Emergency Procedure Boards in all classrooms

IF YOU HAVE TO LEAVE NSLS, advise a colleague, supervisor or fellow student. Remember that traffic may be congested.

Fire safety and evacuation procedures

- Remove anyone in the immediate area and close all doors as you leave.
- Activate the nearest fire alarm pull station to evacuate the building and to notify the Fire Department.
- Call the Police Department at 111 from any campus phone. Tell them where the fire is and give them any other information they ask for. They will dispatch the Fire Department.
- Attempt to extinguish the fire only if it is safe to do so.
- If there is smoke or heat, stay low. Crawl to the nearest exit if need be.
- Use stairways, NOT elevators!
- Before opening any door, feel it near the top. If it is hot, do not open it. Use another exit. If you become trapped, do the following:
 - a) Call Police from a campus phone and tell them your exact location and your situation.
 - b) If you only have a cell phone, call police on that.
 - c) Place a blanket or similar article along the bottom of the door to keep smoke out.
 - d) If possible, wet the material first.
 - e) Retreat. Close as many doors between you and the fire as possible.
 - f) Hang a light-colored material out the window to attract attention of rescue teams below.
 - g) Do NOT jump!
 - h) Do NOT break open windows!
- If the door is not hot, open it cautiously. Stand behind the door and be prepared to close it quickly if there is excessive smoke.
 - a) Leave the area by the nearest stairway that is clear of smoke.
 - b) Assemble outside in a pre-designated area. Do not re-enter the building until notified to do so by the Fire Department.

6.7

Building Compliance

NSLS buildings require a Warrant of Fitness under legislation of the Building Act 2004, Section 108. NSLS ensures that the warrant is current.

This aims to provide:

- more clarity on the standards we expect buildings to meet
- more guidance on how those standards can be met
- more certainty that capable people are undertaking building design, construction and inspection
- more scrutiny in the building consent and inspection process
- better protection for building owners through the introduction of mandatory warranties.

A range of items are listed in a building's Compliance Schedule which is subject to specified inspections and maintenance regimes. Once completed and confirmed by an IQP (Independent Qualified Person) this results in the issuance of a publicly displayed annual Building Warrant of Fitness. Some examples of these items are:

- Lifts
- Fume Cupboards
- Fire Alarms
- First Aid Fire Fighting Equipment
- Emergency Lighting
- Automatic Fire Sprinkler Systems
- Ventilation Systems
- Back Flow Preventers
- Fire and Escape Signage(See section6.4)
- Means of Escape (from fire)

The maintenance requirements are varied and include simple visual checks by staff through to thorough system overhauls by qualified contractors on a regular basis. Both are done at NSLS.

One of the requirements is the need for regular fire drills, which are the only method of checking the response planned to a serious life and property threatening situation. NSLS conducts evacuation drills once a term.

The examples listed above are not limited to simply mechanical or physical systems maintained by Facilities Management. Means of Escape (from fire) also has a large departmental housekeeping component as well. In its simplest form it means that we must keep all corridors, stairs and exits clear of obstructions and combustible items at all times. Items commonly found in these areas that are not permitted, are cartons, wheelie bins, tables, chairs, and other sundry items that are either combustible or cause obstructions in the escape path. The most common problem is notice boards covered with loose paper which alters the Spread of Flame Index to which the safe paths are designed. These require close monitoring and should strictly be displayed behind glass or perspex covers.

6.8 NSLS Grievance Procedures

NSLS is committed to providing a safe and fair work and study environment. All complaints are treated seriously and the school will attempt to resolve them as quickly as possible.

NSLS has grievance procedures available to ensure that students are able to make complaints and that complaints are responded to appropriately without prejudice to the student.

If you have concerns about your treatment by the school, by a staff member or by another student the first thing you should do is try and resolve the problem directly with the person(s) concerned. Wherever possible, complaints should be resolved by a process of discussion, cooperation and conciliation.

Student Grievances Procedures

Step 1 Try to resolve the problem with the person directly.

Step 2 If you cannot reach an agreement about your grievance, or if you do not want to approach the person(s) directly, please contact any of the following:

- your teacher,
- your student counselor
- or one of office staff.
- You can also make an appointment to talk to the school Managing Director & DOS.

They will discuss the issue with you and try and help you reach an agreeable outcome.

If the complaint is regarding one of the people above, talk directly to the Managing Director. You are welcome to bring a support person at any meeting.

Step 3 If you are not satisfied with the proposed outcome, you will be asked to put your complaint in writing to the Managing Director.

Step 4 The Managing Director will investigate the complaint and discuss the complaint with you and inform the person (if there is one) that a complaint has been made about them. The outcome and action will be communicated to you within 7 days of receiving your written complaint.
Information about the investigation can be discussed with you and with the other relevant parties. It will remain confidential to student and staff who are not directly involved.

	<p>Step 5</p> <p>If you still have any concerns with the decision of the school you can contact the New Zealand Qualifications Authority (NZQA) or iStudent Complaints. This is an independent organisation that deals with complaints from international students.
